

U.S. Government Solutions

Redefining Help through Science and Innovation

Goose Creek Consulting helps government agencies improve their return on human capital investment and meet the talent management challenges of the current marketplace through coaching solutions focused on organizational development, individual development and change management.

Our Approach. Our Company

Goose Creek’s core values are taking care of each other and partnering with our clients impactful solutions. Goose Creek’s core mission is “redefining help” through unconventional and create ways of helping people’s lives and improving the performance of organizations. Goose Creek was founded in 2010 as a firm primarily focused on mental health and expanded to career development, leadership development and talent strategy. We are a member of the 8(a) New Business Development Program.

Our Technical Capabilities

Leadership Development Programs

Our custom leadership development programs can combine facilitations, individual coaching, group coaching, team coaching, assessments, mentoring and capstone projects to assist organization’s in building groups of leaders.

Leadership Assessments

We use scientifically valid personality, driver and competency assessments to help leaders build situational self-awareness that is actionable and allows them to target behaviors to make them stronger leaders.

Executive Coaching

Our highly trained, experienced and skilled executive coaches are able to help leaders develop competencies for success through individual, group and team coaching.

High Potential Programs

Our custom high potential programs use coaching, group development and assessments to help organizations prepare individuals who have high potential for leadership.

Talent Strategy

We help organizations trying to meet their objectives through identifying the behavioral competencies critical to success, employee engagement surveys, organizational change surveys, group talent reviews, succession management programs and selection assessments.
